

Textiles — Tests for colour fastness —

Part E02: Colour fastness to sea water

The European Standard EN ISO 105-E02:1996, with the incorporation of Technical Corrigendum 1:2002, has the status of a British Standard

ICS 59.080.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee TCI/25, Chemical properties, upon which the following bodies were represented:

- Association of Consulting Scientists
- Association of Suppliers to the British Clothing Industry
- British Apparel and Textile Confederation
- British Clothing Industry Association
- British Measurement and Testing Association
- British Retail Consortium
- Chemical Industries Association
- Consumer Policy Committee of BSI
- Fabric Care Research Association Ltd.
- Home Laundering Consultative Council
- International Wool Secretariat
- Mail Order Traders' Association
- Ministry of Defence
- National Wool Textile Export Corporation
- SATRA Footwear Technology Centre
- Soap and Detergent Industry Association
- Society of Dyers and Colourists
- Textile Finishers' Association

Participation in the detailed technical work was undertaken by the Society of Dyers and Colourists

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 September 1996

National foreword

This British Standard has been prepared by Technical Committee TCI/25. It is the English language version of EN ISO 105-E02:1996, including Technical Corrigendum February:2002, *Textiles — Tests for colour fastness — Part E02: Colour fastness to sea water*, which is identical with ISO 105-E02:1994 published by the International Organization for Standardization.

This British Standard supersedes the corresponding method in BS 1006:1990, which is deleted by amendment.
