Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/18, Sampling and analysis of iron and steel, upon which the following bodies were represented:

- British Cast Iron Research Association
- British Iron and Steel Producers' Association
- Ministry of Defence
- The Welding Institute

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 December 1995

National foreword

This British Standard has been prepared by Technical Committee ISE/18 and is the English language version of EN ISO 10700:1995 *Steel and iron — Determination of manganese content — Flame atomic absorption spectrometric method*, published by the European Committee for Standardization (CEN).

EN ISO 10700 is identical with ISO 10700:1994, published by the International Organization for Standardization (ISO). It was produced as a result of international discussions in which the United Kingdom took an active part.

Cross-references

Publication referred to	Corresponding British Standard
ISO 1042:1983	BS 1792:1982 <i>Specification for one-mark volumetric flasks</i>
ISO 3696:1987	BS 3978:1987 <i>Specification for water for laboratory use</i>
ISO 5725:1986	BS 5497 <i>Precision of test methods</i> Part 1:1987 <i>Guide for the determination of repeatability and reproducibility for a standard test method by inter-laboratory tests</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 77.080

Descriptors: Steels, iron, chemical analysis, determination of content, manganese, atomic absorption spectrometric method

English version

Steel and iron — Determination of manganese content — Flame atomic absorption spectrometric method

(ISO 10700:1994)

Aciers et fontes — Dosage du manganèse —
Méthode par spectrométrie d'absorption
atomique dans la flamme
(ISO 10700:1994)

Stahl und Eisen — Bestimmung von Mangan —
Flammenatomabsorptionsspektrometrisches
Verfahren
(ISO 10700:1994)

This European Standard was approved by CEN on 1995-08-06. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard from ISO/TC 17, Steel, of the International Organization for Standardization (ISO) has been taken over as a European Standard by the Technical Committee EC/SS/TC 20, Methods of chemical analysis.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest March 1996, and conflicting national standards shall be withdrawn at the latest March 1996.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
