National foreword

This British Standard is the English language version of EN ISO 11058:1999. It is identical with ISO 11058:1999.

The UK participation in its preparation was entrusted to Technical Committee B/553, Geomembranes and geotextiles, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 14 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date	Comments

This British Standard, having been prepared under the direction of the Sector Committee for Building and Civil Engineering, was published under the authority of the Standards Committee and comes into effect on 15 May 1999

English version

Geotextiles and geotextile-related products — Determination of water permeability characteristics normal to the plane, without load

(ISO 11058:1999)

Géotextiles et produits apparentés —
Détermination des caractéristiques de
perméabilité à l'eau normalement au plan, sans
contrainte mécanique
(ISO 11058:1999)

Geotextilien und geotextilverwandte
Produkte — Bestimmung der
Wasserdurchlässigkeit normal zur Ebene, ohne
Auflast
(ISO 11058:1999)

This European Standard was approved by CEN on 29 November 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of EN ISO 11058:1999 has been prepared by Technical Committee CEN/TC 189 “Geotextiles and geotextile-related products”, the secretariat of which is held by IBN, in collaboration with Technical Committee ISO/TC 38 “Textiles”.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 1999, and conflicting national standards shall be withdrawn at the latest by August 1999.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Contents

	Page		Page
Foreword	2	Annex C (informative)	13
1 Scope	3	Annex D (informative)	13
2 Normative references	3	Figure 1 — Examples of apparatus for the constant head method	7
3 Definitions	3	Figure 2 — Fitted quadratic regression curve (v , H)	8
4 Test specimens	3	Figure 3 — Examples of apparatus for the falling head method	9
4.1 Handling	3	Figure 4 — Example of a falling water level as recorded by an analog writer	10
4.2 Selection	3	Figure A.1 — Graphical presentation of the correction factor R_T	11
4.3 Number and dimensions	3	Figure B.1 — Fitted quadratic regression curve v_{20} , H	12
4.4 Condition of specimens	3	Table B.1 — Experimental data of velocity v and head loss H after temperature correction	12
5 Constant head method	3	Table C.1 — Velocity index	13
5.1 Principle	3	Table D.1 — Experimental data and calculations for a geotextile or geotextile-related product specimen (constant head method)	13
5.2 Apparatus	3	Table D.2 — Experimental data and calculations for a geotextile or geotextile-related product specimen (falling head method)	14
5.3 Procedure	4		
5.4 Calculation and expression of results	4		
6 Falling head method	5		
6.1 Principle	5		
6.2 Apparatus	5		
6.3 Procedure	5		
6.4 Calculation and expression of results	6		
7 Test report	6		
Annex A (informative)	11		
Annex B (informative) Relationship between head loss and flow velocity	12
