

Preparation of steel substrates before application of paints and related products — Specification for non-metallic blast- cleaning abrasives

Part 7: Fused aluminium oxide

The European Standard EN ISO 11126-7:1999 has the status of a British Standard

ICS 25.220.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee STI/21, Surface preparation of steel, upon which the following bodies were represented:

- Association of Consulting Engineers
- British Chemical Engineering Contractors' Association
- British Coatings Federation Ltd.
- British Constructional Steelwork Association Ltd.
- British Grit Association
- British Iron and Steel Producers' Association
- British Railways Board
- Department of Transport
- Electricity Association
- Institute of Corrosion
- National Federation of Painting and Decorating Contractors
- Oil and Colour Chemists' Association
- Paint Research Association
- Royal Society of Chemistry
- Water Services Association of England and Wales

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 May 1996

National foreword

This British Standard is the official English language version of EN ISO 11126-7:1999. It is identical with ISO 11126-7:1995, including Technical Corrigendum 1:1999.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page and EN ISO foreword, pages 1 to 5 and a back cover.
