National foreword

This British Standard is the English language version of EN ISO 11215:1998. It is identical with ISO 11215:1998 and Amendment 1:1998.

This British Standard has been produced to fulfil BSI's obligation to publish all approved European Standards but, because of the absence of interest in the UK in the subject concerned, there has been no UK participation in the preparation of EN 11215.

Any queries relating to the EN should be directed to BSI quoting the reference AW/100.

Cross-references

Attention is drawn to the fact that CEN and CENELEC standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled "International Standards Correspondence Index", or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, page 2, the ISO title page, page ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 July 1998

English version

Modified starch — Determination of adipic acid content of acetylated di-starch adipates — Gas-chromatographic method

(ISO 11215:1998)
(Incorporates corrigendum October 1998)

Amidons et féculles modifiés — Détermination de la teneur en acide adipique dans les adipates de diamidon acétylés — Méthode par chromatographie en phase gazeuse
(ISO 11215:1998)
(Inclut le corrigendum octobre 1998)

Modifizierte Stärke — Bestimmung des Gehalts an Adipinsäure in acetylierten Di-Stärke-Adipaten — Gaschromatographisches Verfahren
(ISO 11215:1998)
(Eingearbeitet corrigendum Oktober 1998)

This European Standard was approved by CEN on 24 May 1998 and corrigendum October 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
