Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/8, Steel pipes, upon which the following bodies were represented:

- Adhesive Tape Manufacturers' Association
- British Compressed Air Society
- British Iron and Steel Producers' Association
- British Malleable Tubes Fittings Association
- British Stainless Steel Association
- British Valve and Actuator Manufacturers' Association
- British Welded Steel Tube Association
- Engineering Equipment and Materials Users' Association
- Food and Drink Federation
- Institution of Civil Engineers
- Institution of Gas Engineers
- Institution of Water and Environmental Management
- Large Diameter Steel Tube Association
- Mechanical Handling Engineers' Association
- National Association of Plumbing, Heating and Mechanical Services Contractors
- Seamless Steel Tube Association
- Steel Construction Institute
- Steel Tube Fittings Manufacturers' Technical Association
- Society of Motor Manufacturers and Traders Ltd.
- Water Companies Association
- Water Services Association of England and Wales
- Co-opted member

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1997

National foreword

This British Standard has been prepared by Technical Committee ISE/8 *Stainless steel tubes — Dimensions, tolerances and conventional masses per unit length*, and is the English language version of EN ISO 1127:1996, published by the European Committee for Standardization (CEN). It is identical with ISO 1127:1992, prepared by ISO/TC 5, Ferrous metal pipes and metallic fittings, of the International Organization for Standardization (ISO) with the active participation of the UK.

It supersedes certain specifications in BS 3600:1976 which are deleted by amendment.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 23.040.10

Descriptors: Piping, stainless steels, austenitic steels, ferritic steels, martensitic steels, steel tubes, dimensions, dimensional tolerances, linear density

English version

Stainless steel tubes — Dimensions, tolerances and conventional masses per unit length

(ISO 1127:1992)

Tubes en acier inoxydable — Dimensions, tolérances et masses linéiques conventionnelles
(ISO 1127:1992)

Nichtrostende Stahlrohre — Masse, Grenzabmasse und längenbezogene Masse
(ISO 1127:1992)

This European Standard was approved by CEN on 1996-02-16. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
