National foreword

This British Standard has been prepared by Technical Committee STI/53 and is the English language version of EN ISO 11490:1995 *Determination of palladium in palladium jewellery alloys — Gravimetric method with dimethyl glyoxime*, published by the European Committee for Standardization (CEN). It is identical with ISO 11490:1995, published by the International Organization for Standardization (ISO).

Cross-reference

Publication referred to	Corresponding British Standard
ISO 9202:1991	BS EN 29202:1993 <i>Jewellery — Fineness of precious metal alloys</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
