

# Milk — Determination of fat content — Gravimetric method (reference method)

The European Standard EN ISO 1741:1995 has the status of a  
British Standard

# Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AW/5, Chemical analysis of milk and milk products, upon which the following bodies were represented:

- Association of Public Analysts
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Intervention Board
- Ministry of Agriculture, Fisheries and Food
- Royal Society of Chemistry
- Society of Dairy Technology

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1995

# National foreword

This British Standard has been prepared by Technical Committee AW/5 and is the English language version of EN ISO 1211:1995 *Milk — Determination of fat content — Gravimetric method (Reference method)*, published by the European Committee for Standardization (CEN). It is identical with ISO 1211:1984 published by the International Organization for Standardization (ISO) in cooperation with the International Dairy Federation (IDF) and the Association of Official Analytical Chemists (AOAC), and in the preparation of which the UK played a full part. It supersedes BS 1741-3:1987 which is withdrawn.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

## Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 10, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

# Milk — Determination of fat content — Gravimetric method (Reference method)

(ISO 1211:1984)

Lait — Détermination de la teneur en matière  
grasse — Méthode gravimétrique (Méthode de  
références)  
(ISO 1211:1984)

Milch — Bestimmung des Fettgehaltes —  
Gravimetrisches Verfahren  
(Referenzverfahren)  
(ISO 1211:1984)

This European Standard was approved by CEN on 1995-02-05. CEN members are bound to comply with the requirements of the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
