

Glass in building — Laminated glass and laminated safety glass

Part 2: Laminated safety glass

The European Standard EN ISO 12543-2:1998 has the status of a British Standard

ICS 81.040.20

National foreword

This British Standard is the official English language version of EN ISO 12543-2:1998, including amendment A1:2004. It is identical with ISO 12543-2:2004.

The start and finish of text introduced or altered by amendment is indicated in the text by tags **A1** **A1**. Tags indicating changes to text carry the number of the amendment. For example, text altered by EN ISO amendment A1 is indicated by **A1** **A1**.

The UK participation in its preparation was entrusted by Technical Committee B/520, Glass and glazing in building, to Subcommittee B/520/1, Glass and glazing in building — Basic and transformed glass products, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, the EN ISO foreword page, the ISO title page, pages ii to iv, pages 1 to 4, and inside back cover and a back cover.

This European Standard was approved by CEN on 11 January 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of EN ISO 12543-2:1998 has been prepared by Technical Committee CEN/TC 129 "Glass in building", the secretariat of which is held by IBN, in collaboration with Technical Committee ISO/TC 160 "Glass in building".

This part of the standard is one of a series of interrelated parts:

EN ISO 12543-1:	Glass in building - Laminated glass and laminated safety glass - Part 1: Definitions and description of component parts
EN ISO 12543-2:	Glass in building - Laminated glass and laminated safety glass - Part 2: Laminated safety glass
EN ISO 12543-3:	Glass in building - Laminated glass and laminated safety glass - Part 3: Laminated glass
EN ISO 12543-4:	Glass in building - Laminated glass and laminated safety glass - Part 4: Test methods for durability
EN ISO 12543-5:	Glass in building - Laminated glass and laminated safety glass - Part 5: Dimensions and edge finishing
EN ISO 12543-6:	Glass in building - Laminated glass and laminated safety glass - Part 6: Appearance

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 1998, and conflicting national standards shall be withdrawn at the latest by December 1998.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Foreword to amendment A1

This document (EN ISO 12543-2:1998/A1:2004) has been prepared by Technical Committee CEN/TC 129 "Glass in building", the secretariat of which is held by IBN.

This Amendment to the European Standard EN ISO 12543-2:1998 shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 2004, and conflicting national standards shall be withdrawn at the latest by September 2004.

EN ISO 12543-2 was published by CEN as an EN ISO document. However ISO never accepted this document to be published as such.

In order to come to a common view within CEN and ISO, CEN/TC 129 decided to launch a UAP with a proposed amendment that could be acceptable to ISO.

It was agreed with ISO that CEN would launch a UAP and that ISO would issue a new version of the FDIS, incorporating the amendment, as a second FDIS voting.

ISO recommend this course of action since it is some years since this text was placed before the member bodies.

Annex A is informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard : Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.
