

Surgical and dental hand instruments — Determination of resistance against autoclaving, corrosion and thermal exposure

The European Standard EN ISO 13402:2000 has the status of a British Standard

ICS 11.040.30; 11.060.20

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CH/43, Surgical instruments, upon which the following bodies were represented:

- British Iron and Steel Producers Association
- British Surgical Trades Association
- Department of Health
- Institute of Sterile Services Management
- Medical Sterile Products Association
- National Association of Theatre Nurses
- Royal College of Nursing
- Royal College of Surgeons of Edinburgh
- Royal College of Surgeons of England

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 March 1997

National foreword

This British Standard is the official English language version of EN ISO 13402:2000. It is identical with ISO 13402:1995.

The UK participation in its preparation was entrusted to Technical Committee CH/43, Surgical instruments, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, the EN ISO foreword page, pages 1 and 4, an inside back cover and a back cover.
