

Plastics — Determination of the total luminous transmittance of transparent materials —

Part 1: Single-beam instrument

The European Standard EN ISO 13468-1:1996 has the status of a British Standard

ICS 83.080.01

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/21, Testing of plastics, upon which the following bodies were represented:

- The British Apparel and Textile Confederation
- British Plastics Federation
- Department of the Environment (Building Research Establishment)
- Department of Trade and Industry (National Physical Laboratory)
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- GAMBICA (BEAMA Ltd.)
- Institute of Materials
- Ministry of Defence
- Packaging and Industrial Films Association
- PIRA International
- RAPRA Technology Ltd.
- Royal Society of Chemistry

This British Standard, having been prepared under the direction of the Sector Board for Chemicals and Materials, was published under the authority of the Standards Board and comes into effect on 15 January 1997

National foreword

This British Standard has been prepared by Technical Committee PRI/21 and is the English language version of EN ISO 13468-1:1996 *Plastics — Determination of total luminous transmittance of transparent materials — Part 1: Single-beam instrument*. It is identical with ISO 13468-1:1996 published by the International Organization for Standardization (ISO).

This standard is also designated BS 2782-5:Method 532A.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 83.080

Descriptors: Plastics, transparent plastics, tests, optical tests, determination, transmittance, photometric method

English version

Plastics — Determination of total luminous transmittance of transparent materials — Part 1: Single-beam instrument

(ISO 13468-1:1996)

Plastiques — Détermination du facteur de
transmission du flux lumineux total des
matériaux transparents —
Partie 1: Instrument à faisceau unique
(ISO 13468-1:1996)

Kunststoffe — Bestimmung des totalen
Lichttransmissionsgrades von transparenten
Materialien
Teil 1: Einstrahlinstrument
(ISO 13468-1:1996)

This European Standard was approved by CEN on 1996-06-09. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
