National foreword

This British Standard has been prepared by Technical Committee ES/2, and is the English language version of EN ISO 14010:1996, published by the European Committee for Standardization (CEN). It is identical with ISO 14010:1996, *Guidelines for environmental auditing — General principles* published by the International Organization for Standardization (ISO).

NOTE The following typographical error was discovered when adopting the text of the international standard: the title of ISO 14011:1996 given in the Introduction should read *Guidelines for environmental auditing — Audit procedures — Auditing of environmental management systems*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
