National foreword

This British Standard is the UK implementation of EN ISO 14240-2:2011. It is identical to ISO 14240-2:1997. It supersedes BS 7755-4.4.2:1997, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

Compliance with a British Standard cannot confer immunity from legal obligations.

Amendments/corrigenda issued since publication

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1997

ISBN 978 0 580 73149 5

Date	Comments
30 September 2011	This corrigendum renumbers BS 7755-4.4.2:1997 as BS EN ISO 14240-2:2011

English Version

Soil quality - Determination of soil microbial biomass - Part 2:
Fumigation-extraction method (ISO 14240-2:1997)

Qualité du sol - Détermination de la biomasse microbienne
du sol - Partie 2 : Méthode par fumigation-extraction (ISO
14240-2:1997)

Bodenbeschaffenheit - Bestimmung der mikrobiellen
Biomasse von Böden - Teil 2: Fumigations-
Extraktionsverfahren (ISO 14240-2:1997)

This European Standard was approved by CEN on 3 June 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Management Centre: Avenue Marnix 17, B-1000 Brussels

Foreword

The text of ISO 14240-2:1997 has been prepared by Technical Committee ISO/TC 190 “Soil quality” of the International Organization for Standardization (ISO) and has been taken over as EN ISO 14240-2:2011 by Technical Committee CEN/TC 345 “Characterization of soils” the secretariat of which is held by NEN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 2011, and conflicting national standards shall be withdrawn at the latest by December 2011.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Endorsement notice

The text of ISO 14240-2:1997 has been approved by CEN as a EN ISO 14240-2:2011 without any modification.

Content

	Page
Introduction	1
1 Scope	1
2 Normative references	1
3 Definition	1
4 Principle	1
5 Materials and reagents	1
6 Apparatus	2
7 Fumigation and extraction	2
8 Determination of carbon in the extracts	3
9 Precision	5
Annex A (normative) Measurement of water-holding capacity of soil	6
Annex B (informative) Estimation of soil microbial biomass in soils containing large amounts of living roots — Pre-extraction procedure	6
Annex C (informative) Results of an interlaboratory trial	7
Annex D (informative) Bibliography	7
Table C.1 — Result of German interlaboratory ring test for the estimation of soil microbial biomass by the fumigation-extraction method	7
