Part 1: General requirements

The European Standard EN ISO 15087-1:2001 has the status of a British Standard

ICS 11.060.20

National foreword

This British Standard is the official English language version of EN ISO 15087-1:2001. It is identical with ISO 15087-1:1999.

The UK participation in its preparation was entrusted to Technical Committee CH/52, Dental instruments, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Health and Environmental Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 18 September 2001

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

International Standards are drafted in accordance with the rules given in the ISO/IEC Directives, Part 3.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 15087-1 was prepared by Technical Committee ISO/TC 106, *Dentistry*, Subcommittee SC 4, *Dental instruments*.

ISO 15087 consists of the following parts, under the general title *Dental elevators*:

$\frac{3}{4}$ *Part 1: General requirements*

$\frac{3}{4}$ *Part 2: Warwick James elevators*

$\frac{3}{4}$ *Part 3: Cryer elevators*

$\frac{3}{4}$ *Part 4: Coupland elevators*

$\frac{3}{4}$ *Part 5: Bein elevators*

$\frac{3}{4}$ *Part 6: Flohr elevators*
