Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Pigments, Paints and Varnishes Standards Policy Committee (PVC/-) to Technical Committee PVC/10, upon which the following bodies were represented:

- European Resin Manufacturers' Association
- Health and Safety Executive
- Institute of Metal Finishing
- Ministry of Defence
- National Centre of Tribology
- Oil and Colour Chemists' Association
- Paint Research Association
- Paintmakers' Association of Great Britain Ltd.
- Titanium Pigment Manufacturers' Technical Committee

This British Standard, having been prepared under the direction of the Pigments, Paints and Varnishes Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 March 1993

National foreword

This Part of BS 3900 has been prepared under the direction of the Pigments, Paints and Varnishes Standards Policy Committee. It is identical with ISO 1513:1992 *Paints and varnishes — Examination and preparation of samples for testing*, published by the International Organization for Standardization (ISO).

In 1994 the European Committee for Standardization (CEN) accepted ISO 1513:1992 and its Technical Corrigendum 1:1994 as European Standard EN ISO 1513:1994.

This edition supersedes BS 3900-A2:1983, which is withdrawn.

The main difference between BS 3900-A2:1983 and this standard is that discarding samples with surface skin is now recommended.

Cross-references

International Standard	Corresponding British Standard
ISO 1512:1991	BS 3900 <i>Methods of test for paints</i> Part A1:1992 <i>Sampling</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 565, to which normative reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard. A related British Standard to ISO 565 is BS 410:1986 *Specification for test sieves*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
