

BSI Standards Publication

Analysis of natural gas — Biomethane — Determination of ammonia content by tuneable diode laser absorption spectroscopy

National foreword

This British Standard is the UK implementation of EN ISO 2612:2023. It is identical to ISO 2612:2023.

The UK participation in its preparation was entrusted to Technical Committee PTI/15, Natural Gas and Gas Analysis.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.

English Version

Analysis of natural gas - Biomethane - Determination of ammonia content by Tuneable Diode Laser Absorption Spectroscopy (ISO 2612:2023)

Analyse du gaz naturel - Biométhane - Détermination de la teneur en ammoniac par spectroscopie d'absorption laser à diode accordable (ISO 2612:2023)

Analyse von Erdgas - Biomethan - Bestimmung von Ammoniakanteil durch Absorptionsspektroskopie mittels durchstimmbarer Laserdioden (ISO 2612:2023)

This European Standard was approved by CEN on 20 November 2023.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and United Kingdom.

EUROPEAN COMMITTEE FOR STANDARDIZATION

European foreword

This document (EN ISO 2612:2023) has been prepared by Technical Committee ISO/TC 193 "Natural gas" in collaboration with Technical Committee CEN/TC 408 "Natural gas and biomethane for use in transport and biomethane for injection in the natural gas grid" the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by June 2024, and conflicting national standards shall be withdrawn at the latest by June 2024.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a Standardization Request given to CEN by the European Commission and the European Free Trade Association.

Any feedback and questions on this document should be directed to the users' national standards body/national committee. A complete listing of these bodies can be found on the CEN website.

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Republic of North Macedonia, Romania, Serbia, Slovakia, Slovenia, Spain, Sweden, Switzerland, Türkiye and the United Kingdom.

Endorsement notice

The text of ISO 2612:2023 has been approved by CEN as EN ISO 2612:2023 without any modification.

Foreword	v
Introduction	vi
1 Scope	1
2 Normative references	1
3 Terms and definitions	2
4 Safety precautions	3
5 Principle	3
6 Apparatus	3
6.1 NH ₃ analyser	3
6.2 Gas delivery system	3
6.3 Temperature sensor	4
6.4 Pressure sensor	4
6.5 Calibration equipment	4
6.5.1 General	4
6.5.2 Pressure regulators for the NH ₃ cylinders	4
6.5.3 Flow controller	4
6.5.4 Flow meter	4
6.5.5 Dilution device	4
6.5.6 Output manifold	5
7 Reagents and materials	5
7.1 Methane	5
7.2 Calibration gases	5
7.3 Inert gas	5
8 Sampling	5
8.1 General	5
8.2 Construction materials	5
8.3 Cleanliness	6
8.4 Installation of the calibration gas cylinder	6
8.5 Pressure control	6
8.6 Purging of reduction valve and transfer lines	6
8.7 Flow control	6
8.8 Leak control	7
9 Calibration	7
9.1 Calibration procedures	7
9.2 Frequency of calibration	7
9.2.1 Multipoint calibration	7
9.2.2 Zero and span point calibration	7
10 Interferences	7
10.1 Interfering absorbers	7
10.2 Matrix gas	7
10.3 Secondary level spectroscopic effects: Gas temperature, gas pressure, spatial homogeneity	8
10.4 Humidity and carbon dioxide	8
11 Measurement procedure	8
12 Expression of results	8
12.1 Quantities and units	8
12.2 Uncertainty	8
13 Test report	9

Annex A (informative) Spectroscopic analyser performance characteristics for NH₃ analysis in biomethane	10
