

Paints and varnishes — Determination of resistance to liquids —

Part 2: Water immersion method

The European Standard EN ISO 2812-2:1994 has the status of a
British Standard

NOTE It is recommended that this Part be read in conjunction with BS 3900-0, issued separately

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Surface Treatments and Coatings Standards Policy Committee (STC/-) to Technical Committee STC/10, upon which the following bodies were represented:

- European Resin Manufacturers' Association
- Health and Safety Executive
- Institute of Metal Finishing
- Ministry of Defence
- National Centre of Tribology
- Oil and Colour Chemists Association
- Paint Research Association
- Paintmakers Association of Great Britain Ltd.
- Titanium Pigment Manufacturers Technical Committee

This British Standard, having been prepared under the direction of the Surface Treatments and Coatings Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 May 1993

National foreword

This Part of BS 3900 has been prepared under the direction of the Surface Treatments and Coatings Standards Policy Committee. It is identical with ISO 2812-2:1993 *Paints and varnishes — Determination of resistance to liquids — Part 2: Water immersion method*, published by the International Organization for Standardization (ISO).

In 1994, the European Committee for Standardization (CEN) accepted ISO 2812-2:1993 as European Standard EN ISO 2812-2:1994.

Cross-references

International Standard	Corresponding British Standard
ISO 1512:1991	BS 3900 <i>Methods of test for paints</i> Part A1:1992 <i>Sampling</i> (Identical)
ISO 1513:1992	Part A2:1993 <i>Examination and preparation of samples for testing</i> (Identical)
ISO 2808:1991	Part C5:1992 <i>Determination of film thickness</i> (Identical)
ISO 4628-2:1982	Part H2:1983 <i>Designation of degree of blistering</i> (Identical)
ISO 3696:1987	BS 3978:1987 <i>Specification for water for laboratory use</i> (Identical)

This standard makes reference to the forthcoming revision of ISO 1514. ISO 1514:1983 is identical with BS 3900-A3:1986 *Standard panels for testing*. The committee has reviewed the provisions of ISO 1514:1983 to which normative reference is made in the text and has decided that, until the revision is published it is acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
