

Plastics — Injection moulding of test specimens of thermoplastic materials —

Part 1: General principles, and moulding of multipurpose and bar test specimens

The European Standard EN ISO 294-1:1998, with the incorporation of amendment A1:2002, has the status of a British Standard

ICS 83.080.20

National foreword

This British Standard is the English language version of EN ISO 294-1:1998 *Plastics — Injection moulding of test specimens of thermoplastic materials — Part 1: General principles, and moulding of multipurpose and bar test specimens*, including amendment A1:2002, published by the European Committee for Standardization (CEN). It is identical with ISO 294-1:1996, including amendment 1:2001, published by the International Organization for Standardization (ISO).

The UK participation in the preparation of this British Standard was entrusted to Technical Committee PRI/21, Testing of plastics, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.
