Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ISE/NFE/4, Mechanical testing of metals, upon which the following bodies were represented:

- AEA Technology
- Aluminium Federation
- British Non-Ferrous Metals Federation
- British Railways Board
- British Iron and Steel Producers' Association
- Copper Development Association
- Department of Trade and Industry (National Physical Laboratory)
- Department of Trade and Industry (National Measurement Accreditation Service)
- ERA Technology Ltd.
- Electricity Association
- GAMBICA (BEAMA Ltd.)
- Institute of Materials
- Light Metal Founders' Association
- Ministry of Defence
- Society of British Aerospace Companies Limited
- University College London
- Welding Institute

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- BEAMA Ltd.
- Lloyd's Register of Shipping
- Steel Casting Research and Trade Association

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 May 1995

National foreword

This British Standard has been prepared by Technical committee ISE/NFE/4 and is the English language version of EN ISO 3785 *Steel — Designation of test piece axes* published by the European Committee for Standardization (CEN). It is identical with ISO 3785:1976 published by the International Organization for Standardization (ISO). No British Standard is superseded.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Steel — Designation of test piece axes

(ISO 3785:1976)

Acier — Désignation des axes des éprouvettes
(ISO 3785:1976)

Stahl — Kennzeichnung von Probenachsen
(ISO 3785:1976)

This European Standard was approved by CEN on 1995-01-10. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
