Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee EH/1, Acoustics, upon which the following bodies were represented:

- Association of Consulting Engineers
- British Broadcasting Corporation
- British Occupational Hygiene Society
- British Telecommunications plc
- Department of the Environment (Building Research Establishment)
- Department of Health
- Department of Trade and Industry (National Physical Laboratory)
- Health and Safety Executive
- Institute of Acoustics
- Institute of Occupational Hygienists
- Institute of Sound and Vibration Research
- Institution of Electrical Engineers
- Royal Institute of British Architects
- Society of Environmental Engineers

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Access Flooring Association
- Aggregate Concrete Block Association
- Association of Building Component Manufacturers
- Association of Building Engineers
- Association of Manufacturers of Domestic Unvented Supply Systems Equipment
- Autoclaved Aerated Concrete Products Association
- Brick Development Association
- British Bathroom Council
- British Ceramic Research Ltd.
- British Precast Concrete Federation Ltd.
- Calcium Silicate Brick Association Ltd.
- Concrete Block Association
- Concrete Society
- Gypsum Products Development Association
- Heriot-Watt University
- Hevac Association
- Institute of Physics
- Sound and Communications Industries' Federation
- Suspended Ceilings Association

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1996

National foreword

This British Standard has been prepared by Technical Committee EH/1 and is the English language version of EN ISO 3822-2:1995 *Acoustics — Laboratory tests on noise emission from appliances and equipment used in water supply installations — Part 2: Mounting and operating conditions for draw-off taps and mixing valves* published by the European Committee for Standardization (CEN). It supersedes BS 6864-2:1987, which is withdrawn. It is technically equivalent to ISO 3822-2:1995 *Acoustics — Laboratory tests on noise emission from appliances and equipment used in water supply installations — Part 2: Mounting and operating conditions for draw-off taps and mixing valves* published by the International Organization for Standardization (ISO), which supersedes the standard ISO 3822-2:1984.

Cross-references

Publication referred to	Corresponding British Standard
ISO 7-1:1994	BS 21:1985 <i>Specification for pipe threads for tubes and fittings where pressure-tight joints are made on the threads (metric dimensions)</i>
ISO 3822-1:1983	BS 6864 <i>Laboratory tests on noise emission from appliances and equipment intended for use in water supply installations</i> Part 1:1987 (1993) <i>Method for measurement</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
