Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PAI/11, Methods of test for paper, board and pulps, upon which the following bodies were represented:

- British Apparel and Textile Confederation
- British Carton Association
- British Fibreboard Packaging Association
- British Printing Industry Federation
- Envelope Makers' and Manufacturing Stationers' Association
- Her Majesty's Stationery Office
- Institute of Paper Conservation
- Ministry of Defence
- Paper Federation of Great Britain
- Pira International
- University of Manchester Institute of Science and Technology

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 October 1995

National foreword

This British Standard has been prepared by Technical Committee PAI/11 and is the English language version of EN ISO 4119:1996 *Pulps — Determination of stock concentration*, published by the European Committee for Standardization (CEN). It is identical with ISO 4119:1995 published by the International Organization (ISO). It supersedes BS 5878:1980, which is withdrawn.

EN ISO 4119:1996 was produced as a result of international discussions in which the United Kingdom took an active part.

EN ISO 4119:1996 has been approved by CEN member bodies under the weighted voting procedures introduced in 1988 to coincide with the introduction of “New Approach” Directives from the Commission of the European Community.

This British Standard is published under the direction of the Sector Board for Materials and Chemicals whose Technical Committee PAI/11 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, page 2, the ISO title page, pages ii to iv, pages 1 and 2 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Pulps — Determination of stock concentration

(ISO 4119:1995)

Pâtes — Détermination de la concentration en
pâte (ISO 4119:1995)

Halbstoffe — Bestimmung der Stoffdichte
(ISO 4119:1995)

This European Standard was approved by CEN on 1996-04-05. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
