Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee TCI/24, Physical testing of textiles, upon which the following bodies were represented:

- Association of Consulting Scientists
- Association of Suppliers to the British Clothing Industry
- British Apparel and Textile Confederation
- British Measurement and Testing Association
- British Polyolefin Textiles Association
- British Textile Machinery Association
- British Textile Technology Group
- British Throwsters' Association
- Furniture Industry Research Association
- International Wool Secretariat
- Ministry of Defence
- SATRA Footwear Technology Centre
- Society of Dyers and Colourists
- Textile Finishers' Association
- Textile Institute

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 May 1996

National foreword

This British Standard has been prepared by Technical Committee TCI/24 and is the English language version of EN ISO 5079:1995, *Textiles — Fibres — Determination of breaking force and elongation at break of individual fibres*, published by the European Committee for Standardization (CEN). It is identical with ISO 5079:1995, published by the International Organization for Standardization (ISO).

This British Standard supersedes BS 3411:1971 which is withdrawn.

Cross-references

Publication referred to	Corresponding British Standard

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Textiles — Fibres — Determination of breaking force and elongation at break of individual fibres

(ISO 5079:1995)

Textiles — Fibres — Détermination de la force de rupture et de l'allongement à la rupture des fibres individuelles
(ISO 5079:1995)

Textilien — Fasern — Bestimmung der Höchstzugkraft und Höchstzugkraftdehnung an Spinnfasern
(ISO 5079:1995)

This European Standard was approved by CEN on 1995-09-11. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
