

Paper and board — Determination of grammage

The European Standard EN ISO 536:1996 has the status of a
British Standard

ICS 85.060

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PAI/11, Methods of test for paper, board and pulp, upon which the following bodies were represented:

- British Apparel and Textile Confederation
- British Carton Association
- British Fibreboard Packaging Association
- British Printing Industry Federation
- Envelope Makers' and Manufacturing Stationers' Association
- Her Majesty's Stationery Office
- Institute of Paper Conservation
- Ministry of Defence
- Paper Federation of Great Britain
- Pira International
- University of Manchester Institute of Science and Technology

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 February 1997

National foreword

This British Standard has been prepared by Technical Committee PAI/11 and is the English language version of EN ISO 536:1996 *Paper and board — Determination of grammage*, published by the European Committee for Standardization (CEN). It supersedes BS EN ISO 536:1997 which is withdrawn. EN ISO 536:1996 was produced as a result of international discussions in which the United Kingdom took an active part.

EN ISO 536:1996 has been approved by CEN member bodies under the weighted voting procedures introduced in 1988 to coincide with the introduction of “New Approach” Directives from the Commission of the European Community.

NOTE It should be noted that the European ratified text made changes to the Normative references clause of the ISO. For the purposes of this British Standard these changes have not been included, but the equivalent ENs are listed below.

Cross-references

Publication referred to	Corresponding British Standard
ISO 186:1994 pr EN ISO 186 ¹⁾	BS 3430:1995 <i>Method for sampling to determine the average quality of paper and board</i>
