Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Agriculture and Food Standards Policy Committee (AFC/-) to Technical Committee AFC/2, upon which the following bodies were represented:

- British Food Manufacturing Industries Research Association
- Department of Trade and Industry (Laboratory of the Government Chemist)
- FOSFA International
- Grain and Feed Trade Association
- Institute of Biology
- International Association of Seed Crushers
- Intervention Board for Agricultural Produce
- Ministry of Agriculture, Fisheries and Food
- National Farmers' Union
- National Institute of Agricultural Botany
- Natural Resources Institute
- Royal Society of Chemistry
- Seed Crushers' and Oil Processors' Association
- Tropical Growers' Association

This British Standard, having been prepared under the direction of the Agriculture and Food Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 29 March 1991

National foreword

This British Standard has been prepared under the direction of the Agriculture and Food Standards Policy Committee. It is identical with ISO 542:1990 “*Oilseeds — Sampling*”, published by the International Organization for Standardization (ISO), in the preparation of which the United Kingdom played a full part. It is a revision of BS 4146:1981 which is withdrawn and from which it differs principally in that the sample sizes at the various stages of sampling have been changed, and that additional information is given.

In 1995 the European Committee for Standardization (CEN) accepted ISO 542:1990 as European Standard EN ISO 542:1995. As a consequence of implementing the European Standard this British Standard is renumbered as BS EN ISO 542 and any reference to BS 4146 should be read as a reference to BS EN ISO 542.

Cross-reference

International Standard	Corresponding British Standard
ISO 664:1990	BS 4289 <i>Methods for analysis of oilseeds</i> Part 1:1990 <i>Preparation of test sample</i> (Identical)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 12, an inside back cover and a back cover. This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Descriptors: Agricultural products, oilseeds, sampling equipment

English version

Oilseeds — Sampling

(ISO 542:1990)

Graines oléagineuses — Echantillonnage
(ISO 542:1990)

Ölsamen — Probenahme
(ISO 542:1990)

This European Standard was approved by CEN on 1995-01-05. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard from ISO/TC 34, Agricultural food products, of the International Organization for Standardization (ISO) has been taken over as a European Standard by the Technical Committee CEN/TC 307, Oilseeds, vegetable and animal fats and oils and their by-products — Methods of sampling and analysis.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by October 1995, and conflicting national standards shall be withdrawn at the latest by October 1995.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

NOTE Normative references to international publications are listed in Annex ZA (normative).
