Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AW/2, Oilseeds and residues, upon which the following bodies were represented:

- British Food Manufacturing Industries Research Association
- Department of Trade and Industry (Laboratory of the Government Chemist)
- FOSFA International
- Grain and Feed Trade Association
- Institute of Biology
- Ministry of Agriculture, Fisheries and Food
- National Farmers' Union
- National Institute of Agricultural Botany
- Royal Society of Chemistry
- Seed Crushers' and Oil Processors' Association
- Tropical Growers' Association
- United Kingdom Agricultural Supply Trade Association Ltd.

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1995

National foreword

This British Standard has been prepared by Technical Committee AW/2 and is the English language version of EN ISO 658:1995 *Oilseeds — Determination of impurities content*, published by the European Committee for Standardization (CEN). It is identical with ISO 658:1988, published by the International Organization for Standardization (ISO) and in the preparation of which the UK played a full part. It supersedes BS 4289-2:1989 which is withdrawn and from which it differs in that the cross-references have been updated.

Cross-references

Publication referred to	Corresponding British Standard
	BS 4289 <i>Methods for analysis of oilseeds</i>
ISO 659:1988	Part 4:1989 <i>Determination of hexane extract (or light petroleum content) called “oil content”</i>
ISO 664:1990	BS EN ISO 664:1995 <i>Oilseeds — Reduction of laboratory sample to test sample</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Oilseeds — Determination of impurities content

(ISO 658:1988)

Graines oléagineuses — Détermination de la
teneur en impuretés
(ISO 658:1988)

Ölsamen — Bestimmung des Gehaltes an
Verunreinigungen
(ISO 658:1988)

This European Standard was approved by CEN on 1995-01-05. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
