Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AW/11, Animal and vegetable fats and oils, upon which the following bodies were represented:

- AFRC Institute of Food Research
- Association of Public Analysts
- British Food Manufacturing Industries Research Association
- Cooperative Union
- Department of Trade and Industry (Laboratory of the Government Chemist)
- FOSFA International
- Institute of Biology
- International Association of Seed Crushers
- International Federation of Inspection Agencies
- Margarine and Shortening Manufacturers' Association
- Ministry of Agriculture, Fisheries and Food
- Natural Resources Institute
- Royal Society of Chemistry
- Seed Crushers' and Oil Processors' Association
- Soap and Detergent Industry Association
- Society of Chemical Industry
- Tropical Growers' Association
- United Kingdom Renderers' Association Ltd.

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 September 1995

National foreword

This British Standard has been prepared by Technical Committee AW/11. It is the English language version of EN ISO 663:1995 *Animal and vegetable fats and oils — Determination of insoluble impurities content*, published by the European Committee for Standardization (CEN). It is identical with ISO 663:1992 published by the International Organization for Standardization (ISO), in the preparation of which the UK played a full part, and to which CEN has added an informative annex containing precision data established in accordance with ISO 5725:1986. It supersedes BS 684-2.3:1992 which is withdrawn and from which it differs in that the cross-references have been updated and the informative annex on precision data has been added.
