National foreword

This British Standard has been prepared by Technical Committee CH/78 and is the English language version of EN ISO 7998:1996 *Optics and optical instruments — Spectacle frames — Vocabulary and lists of equivalent terms* published by the European Committee for Standardization (CEN). It was derived by CEN from ISO 7998:1984 published by the International Organization for Standardization (ISO). Clause 3 of ISO 7998:1984 was previously published as Appendix A to BS 3521-2:1991, but has subsequently been deleted from that standard by AMD 9203:1996.

This standard presents only a limited number of defined terms. The diagrams accompanying the lists of equivalent terms illustrate the meanings of these latter terms. For a more comprehensive glossary of terms relating to spectacle frames, see BS 3521-2:1991.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
