Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Petroleum Standards Committee (PTC/-) to Technical Committee PTC/12, upon which the following bodies were represented:

- Department of Energy (Gas and Oil Measurement Branch)
- Department of Trade and Industry (National Engineering Laboratory)
- Department of Trade and Industry (National Weights and Measures Laboratory)
- Department of Transport (Marine Directorate)
- General Council of British Shipping
- Institute of Petroleum
- Royal Institution of Naval Architects
- Salvage Association

This British Standard, having been prepared under the direction of the Petroleum Standards Committee, was published under the authority of the Board of BSI and comes into effect on 29 February 1988

National foreword

8222:1995 *Petroleum measurement systems — Calibration — Temperature corrections for use with volumetric reference measuring systems* published by the European Committee for Standardization (CEN). It is identical with ISO 8222:1987 published by the International Organization for Standardization (ISO).

Cross-references

International Standard	British Standard
ISO 3838:1983	BS EN ISO 3838:1995 <i>Methods for determination of density or relative density of petroleum and petroleum products (pycnometer methods)</i> (Identical)

The standards listed in clause 7 are referred to for information only and ISO 4269 is still at the stage of draft. ISO 5024 is related to BS 5579:1978 “*Specification for standard reference conditions for measurement of petroleum liquids and gases*”; the reference temperature of 15 °C given in ISO 5024 and referred to in this standard is identical with that given in BS 5579.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This European Standard was approved by CEN on 1995-09-09. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
