

Cellular plastics and rubbers — Determination of apparent (bulk) density

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/24, Test methods for cellular plastics and rubber, upon which the following bodies were represented:

- British Plastics Federation
- British Railways Board
- British Rigid Urethane Foam Manufacturers' Association
- British Rubber Manufacturers' Association Ltd.
- Department of the Environment (Building Research Establishment)
- Furniture Industry Research Association
- Furniture, Timber and Allied Trades Union
- Ministry of Defence
- National Bed Federation Limited
- Phenolic Foam Manufacturers' Association
- RAPRA Technology Ltd.
- Society of British Aerospace Companies Limited
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 July 1995

National foreword

This British Standard has been prepared by Technical Committee PRI/24 and is the English language version of EN ISO 845:1995 *Cellular plastics and rubbers — Determination of apparent (bulk) density* published by the European Committee for Standardization (CEN), which is identical with ISO 845:1988 published by the International Organization for Standardization (ISO).

This British Standard supersedes method 2 of BS 4370-1:1988, which is deleted by amendment.

The Furniture and Furnishings (Fire) (Safety) Regulations 1988 specifies BS 3379:1975, which in turn refers to BS 4443-1 for density measurements. BS 4443-1 therefore remains current.

Cross-reference

Publication referred to	Corresponding British Standard
EN ISO 1923:1995	BS EN ISO 1923:1995 <i>Cellular plastics and rubbers — Determination of linear dimensions</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
