Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CH/51, Prosthodontic and orthodontic materials, upon which the following bodies were represented:

- Association of Dental Hospitals of the United Kingdom
- British Ceramic Research Limited
- British Dental Association
- British Dental Trade Association
- British Institute of Surgical Technologists
- British Orthodontic Society
- British Society for Restorative Dentistry
- British Society for the Study of Prosthetic Dentistry
- British Society of Periodontology
- Dental Laboratories Association Limited
- Dental Materials Panel
- Department of Health
- Gypsum Products Development Association
- Institute of Materials
- Institute of Physics
- Ministry of Defence
- Orthodontic Technicians' Association
- Royal Society of Medicine
- Society of University Dental Instructors

This British Standard, having been prepared under the direction of the Health and Environment Sector Board, was published under the authority of the Standards Board and comes into effect on 15 October 1995

National foreword

This British Standard has been prepared by Technical Committee CH/51 and is the English language version of EN ISO 8891:1995 *Dental casting alloys with noble metal content of 25 % up to but not including 75 %*, published by the European Committee for Standardization (CEN). It is identical with ISO 8891:1993 published by the International Organization for Standardization (ISO). It supersedes BS 6042:1990 which is withdrawn.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 11.060.20

Descriptors: Dentistry, dental prothesis, dental materials, alloys, precious metal, gold alloys, classifications, specifications, tests, packing

English version

Dental casting alloys with noble metal content of 25 % up to but not including 75 %

(ISO 8891:1993)

Alliages dentaires à couler avec une teneur en
métaux précieux comprise entre 25 % et 75 %
(ISO 8891:1993)

Dental-Gußlegierungen mit einem
Edelmetallanteil von 25 % bis unter 75 %
(ISO 8891:1993)

This European Standard was approved by CEN on 1995-01-12. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
