Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee WEE/18, Gas, welding and cutting appliances, upon which the following bodies were represented:

- British Compressed Gases Association
- British Railways Board
- Consumer Policy Committee of BSI
- Department of Trade and Industry (Consumer Safety Unit, CA Division)
- Health and Safety Executive
- LP Gas Association
- South Bank University
- Welding Manufacturers' Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 August 1995

National foreword

This British Standard has been prepared by Technical Committee WEE/18 and is the English language version of EN ISO 9013:1995 *Welding and allied processes — Quality classification and dimensional tolerances of thermally cut (oxygen/fuel gas flame) surfaces*, published by the European Committee for Standardization (CEN).

EN ISO 9013:1995 was produced as a result of international discussion in which the United Kingdom took an active part.

Cross-reference

Publication referred to	Corresponding British Standard
ISO 1302:1978	BS 308 <i>Engineering drawing practice — Part 2:1985 Recommendations for dimensioning and tolerancing of size</i>

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 12, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Welding and allied processes — Quality classification and dimensional tolerances of thermally cut (oxygen/fuel gas flame) surfaces

(IEC 9013:1992)

Soudage et techniques connexes — Niveaux de qualité et tolérances dimensionnelles des surfaces découpées thermiquement (à la flamme d'oxygène/gaz de chauffe)
(ISO 9013:1992)

Schweißen und verwandte Verfahren — Güteinteilung und Maßtoleranzen für autogene Brennschnittflächen
(ISO 9013:1992)

This European Standard was approved by CEN on 1995-01-09. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This draft European Standard has been taken over by the Technical Committee CEN/TC 121, Welding, from the work of ISO/TC 44, Welding and allied processes, of the International Organization for Standardization (ISO).

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by September 1995, and conflicting national standards shall be withdrawn at the latest by September 1995.

According to the CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.
