National foreword

This British Standard has been prepared by Technical Committee GME/33 and is the English language version of EN ISO 9097:1994 *Small craft — Electric fans*, including amendment A1:2000, published by the European Committee for Standardization (CEN). It is identical with ISO 9097:1994 published by the International Organization for Standardization (ISO).

EN ISO 9097 was produced as a result of international discussion in which the United Kingdom took an active part.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 7 and a back cover.
