Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee NFE/27, Tin and tin alloys, upon which the following bodies were represented:

- Association of British Pewter Craftsman
- British Iron and Steel Producers' Association
- Federation of the Electronics Industry
- International Tin Research Institute
- London Metal Exchange
- Metal Packaging Manufacturers' Association
- Solder Makers' Association
- Co-opted members

The following bodies were also represented in the drafting of the standard, through subcommittees and panels.

- British Plumbing Fittings Manufacturers' Association
- Institute of Metal Finishing
- Ministry of Defence
- Co-opted members

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 February 1996

National foreword

This British Standard has been prepared by Technical Committee NFE/27 and is the English language version of EN ISO 9455-2:1995 *Soft soldering fluxes — Test methods — Part 2: Determination of non-volatile matter, ebulliometric method*, published by the European Committee for Standardization (CEN).

EN ISO 9455-2 is identical with ISO 9455-2:1993, published by the International Organization for Standardization (ISO).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISO title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

ICS 25.160.20; 25.160.50

Descriptors: Soldering, soldering fluxes, tests, determination of content, non volatile matter, evaporation analysis

English version

Soft soldering fluxes — Test methods —
Part 2: Determination of non-volatile matter,
ebulliometric method

(ISO 9455-2:1993)

Flux de brasage tendre — Méthodes d'essai —
Partie 2: Dosage des matières non volatiles
par ébulliométrie
(ISO 9455-2:1993)

Flußmittel zum Weichlöten —
Prüfverfahren —
Teil 2: Bestimmung nichtflüchtiger Stoffe,
ebulliometrische Methode
(ISO 9455-2:1993)

This European Standard was approved by CEN on 1995-08-27. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
