National foreword

This British Standard has been prepared under the direction of the Health Care Standards Policy Committee. It is identical with ISO 9680:1993 *Dental operating light*, prepared by Technical Committee 106 Dentistry, of the International Organization for Standardization (ISO) with the active participation of the UK.

In 1996 the European Committee for Standardization (CEN) accepted ISO 9680:1993 as European Standard EN ISO 9680:1996. As a consequence of implementing the European Standard this British Standard is renumbered as BS EN ISO 9680:1996 and any reference to BS 7748:1994 should be read as a reference to BS EN ISO 9680:1996.

There are no British Standards corresponding with IEC 598-1:1986, CIE 15.2:1986 and CIE 69:1987 although BS EN 60598-1:1993 is related to IEC 598-1:1992. The technical committee has reviewed the provision of IEC 598-1:1986, CIE 15.2:1986 and CIE 69:1987, to which normative reference is made in the text, and has decided that they are suitable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
