National foreword

This Part of BS EN ISO/IEC 9646 has been prepared by Technical Committee IST/21 and is the English language version of EN ISO/IEC 9646-4:1996 *Information technology — Open Systems Interconnection — Conformance testing methodology and framework — Part 4: Test realization*, published by the European Committee for Standardization (CEN). It supersedes BS ISO/IEC 9646-4:1991, which is withdrawn.

This British Standard is published under the direction of the Information Systems Technology Assembly whose Technical Committee IST/21 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
