National foreword

This British Standard has been prepared by Technical Committee IST/21 and is the English language version of EN ISP 11185:1995, *Information technology — International Standardized Profiles FVT2nn — Virtual Terminal Basic Class — Register of control object type definitions — Part 4. FVT217, Horizontal Tabulation Control Object*, published by the European Committee for Standardization (CEN). It is identical with ISO/IEC ISP 11185-4:1994 published by the International Organization for Standardization (ISO). Together with EN ISP 11185-1 to EN ISP 11185-3 and EN ISP 11185-5 to EN ISP 11185-11 it supersedes DD ENV 41209:1991 which is withdrawn.

This British Standard is published under the direction of the Information Systems Technology Assembly whose Technical Committee IST/21 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
