Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee IST/18, Document processing and related communication, upon which the following bodies were represented:

- British Computer Society
- HM Treasury (Central Computer and Telecommunications Agency)
- IBM United Kingdom Ltd.
- International Computers Limited
- Joint Information Systems Committee of the Higher Education Funding Council
- Level 7 Ltd.
- National Computing Centre Ltd.
- National Health Services
- Rank Xerox Ltd.

This British Standard, having been prepared under the direction of the Information Systems Technology Assembly, was published under the authority of the Standards Board and comes into effect on 15 September 1996

National foreword

This British Standard has been prepared by Technical Committee IST/18 and is the English language version of EN ISP 12063-1:1996 *Information Technology — International Standardized Profiles AMH3n — Message Handling Systems — EDI Messaging — Part 1: EDIMG MHS Service Support*. It is identical with ISO/IEC ISP 12063-1:1995 published by the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC). The five Parts of BS EN ISP 12063 collectively replace DD ENV 41220:1994 which is withdrawn.

This British Standard is published under the direction of the Information Systems Technology Assembly whose Technical Committee IST/18 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European/international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN ISP title page, page 2, the ISO/IEC ISP title page, pages ii to iv, pages 1 to 20 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

English version

Information technology — International Standardized Profiles AMH3n — Message Handling Systems — EDI Messaging Part 1: EDIMG MHS Service Support

(ISO/IEC ISP 12063-1:1995)

Technologies de l'information — Profils normalisés internationaux AMH3n — Systèmes de messagerie — Messagerie EDI — Partie 1: Support de service EDIMG MHS (ISO/IEC ISP 12063-1:1995)

This European Standard was approved by CEN on 1996-04-19. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of this International Standard from the Technical Committee ISO/IEC/JTC 1, Information Technology, of the International Organization for Standardization (ISO) and the International Electrotechnical Commission (IEC) has been taken over as a European Standard by the Technical Board of CEN.

The EN ISO 12063, Parts 1 to 5, replaces ENV 41220:1993 which shall be withdrawn.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 1996, and conflicting national standards shall be withdrawn at the latest by November 1996.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Foreword

ISO (the International Organization for Standardization) and IEC (the International Electrotechnical Commission) form the specialized system for worldwide standardization. National bodies that are members of ISO or IEC participate in the development of International Standards through technical committees established by the respective organization to deal with particular fields of technical activity. ISO and IEC technical committees collaborate in fields of mutual interest. Other international organizations, governmental and non-governmental, in liaison with ISO and IEC, also take part in the work.

In the field of information technology, ISO and IEC have established a joint technical committee, ISO/IEC JTC1. In addition to developing International Standards, ISO/IEC JTC1 has created a Special Group on Functional Standardization for the elaboration of International Standardized Profiles.

An International Standardized Profile is an internationally agreed, harmonized document which identifies a standard or group of standards, together with options and parameters, necessary to accomplish a function or set of functions.

International Standardized Profile ISO/IEC ISP 12063-1 was prepared with the collaboration of:

- OSI Asia-Oceania Workshop (AOW)
- European Workshop for Open Systems (EWOS), jointly with the European Telecommunications Standards Institute (ETSI)
- OSE Implementors' Workshop (OIW)

ISO/IEC ISP 12063 consists of the following parts, under the general title *Information technology — International Standardized Profiles AMH3n — Message Handling Systems — EDI Messaging*:

- *Part 1: EDIMG MHS Service Support*;
- *Part 2: AMH31 — EDIMG Content*;
- *Part 3: AMH32 — EDIMG Requirements for Message Transfer (P1)*;
- *Part 4: AMH33 — EDIMG Requirements for MTS Access (P3)*;
- *Part 5: AMH34 — EDIMG Requirements for Enhanced MS Access (P7)*.

Annexes A and B form an integral part of this part of ISO/IEC ISP 12063. Annexes C, D and E are for information only.
