Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Aerospace Standards Committee (ACE/-) to Technical Committee ACE/54 upon which the following bodies were represented:

- British Rubber Manufacturers' Association
- British Textile Employers' Association
- Man-made Fibres Producers' Committee
- Ministry of Defence
- Society of British Aerospace Companies Limited
- Society of Dyers and Colourists

This British Standard, having been prepared under the direction of the Aerospace Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 May 1988

Foreword

This British Standard, prepared under the direction of the Aerospace Standards Committee, is one of a series for textiles of a quality suitable for aerospace purposes and replaces DTD 5635-1. Basic quality requirements contained in the latest edition of BS F 100 have been identified. The standard specifies the requirements for a warp knitted nylon fabric for use primarily in the manufacture of towed banner targets.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
