

Sampling and testing carbon black for use in the rubber industry —

**Rubber compounding
ingredients — Carbon black —
Determination of ash**

ICS 83.040.20

National foreword

This British Standard is the UK implementation of ISO 1125:1999. It supersedes BS 5293-7:2001, which is withdrawn.

The start and finish of text introduced or altered by amendment is indicated in the text by tags. Tags indicating changes to ISO text carry the number of the ISO amendment. For example, text altered by ISO amendment 1 is indicated by **A1** ~~A1~~.

The UK participation in its preparation, was entrusted to Technical Committee PRI/50, Natural and synthetic rubbers

A list of organizations represented on this committee can be obtained on request to its secretary.

A British Standard does not include all the necessary provisions of a contract. Users of British Standards are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

Amendments /corrigenda issued since publication

This British Standard, having been prepared under the direction of the Sector Policy and Strategy Committee for Materials and Chemicals, was published under the authority of the Standards Policy and Strategy Committee on 7 November 2001
