

BSI Standards Publication

Plastics — Smoke generation — Determination of the corrosivity of fire effluents

Part 1: General concepts and applicability

National foreword

This British Standard is the UK implementation of ISO 11907-1:2019. It supersedes BS ISO 11907-1:1998, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/26, Burning behaviour of plastics and rubbers.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
