Physical and mechanical properties of wood — Test methods for small clear wood specimens

Part 5: Determination of strength in compression perpendicular to grain

National foreword

This British Standard is the UK implementation of ISO 13061-5:2020.

The UK participation in its preparation was entrusted to Technical Committee B/543, Round and sawn timber.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
