

BS ISO 16374:2016

BSI Standards Publication

Evaluation method for cleanliness of magnesium and magnesium alloy ingots

National foreword

This British Standard is the UK implementation of ISO 16374:2016.

The UK participation in its preparation was entrusted to Technical Committee NFE/35, Light metals and their alloys.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
