Road vehicles — Connection interface for pyrotechnic devices, two-way and three-way connections

Part 1: Pocket interface definition

National foreword

This British Standard is the UK implementation of ISO 19072-1:2019. It supersedes BS ISO 19072-1:2014, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee AUE/32, Electrical and electronic components and general system aspects (Road vehicles).

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
