Textiles — Determination of the total heat transfer through textiles in simulated environments

National foreword

This British Standard is the UK implementation of ISO 20852:2020.

The UK participation in its preparation was entrusted to Technical Committee TCI/24, Physical testing of textiles.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
