Fireworks — Test methods for determination of specific chemical substances

Part 7: Chlorates content by chemical titration analysis

National foreword

This British Standard is the UK implementation of [ISO 22863-7:2021](#).

The UK participation in its preparation was entrusted to Technical Committee CII/47, Pyrotechnic articles.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
