

BSI Standards Publication

Radio-controlled clocks — Signal receiving measurement method

National foreword

This British Standard is the UK implementation of [ISO 23346:2020](#).

The UK participation in its preparation was entrusted to Technical Committee STI/53, Specifications and test methods for jewellery and horology.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
