Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee CPM/15, Dimensions of sensitized materials and related items, upon which the following bodies were represented:

- Association of Photographic Laboratories
- British Institute of Non-destructive Testing
- British Institute of Radiology
- British Kinematograph, Sound and Television Society
- British Photographic Association
- College of Radiographers
- Department of Health
- Institute of Reprographic Technology
- PICON

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 June 1995

Text of ISO 3029	1

National foreword

This British Standard reproduces verbatim ISO 3029:1995 and implements it as the UK national standard.

This British Standard is published under the direction of the Consumer Products and Services Sector Board whose Technical Committee CPM/15 has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international committee any enquiries on interpretation, or proposals for change, and keep UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

NOTE International and European Standards, as well as overseas standards, are available from Customer Services, BSI, 389 Chiswick High Road, London W4 4AL.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 12 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Table 5 — Leader and trailer dimensions	8
Table 6 — Dimensions of film and backing paper	10

Descriptors: Photography, photographic materials, cartridges (photographic film), photographic film, backing paper, dimensions, notches, numeric codes.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 3029 was prepared by Technical Committee ISO/TC 42, *Photography*.

This third edition cancels and replaces the second edition (ISO 3029:1983), of which it constitutes a technical revision.

Annex A and Annex B of this International Standard are for information only.
