

Tractors, machinery for agriculture and forestry, powered lawn and garden equipment — Symbols for operator controls and other displays —

Part 3: Symbols for powered lawn and garden equipment

ICS 01.080.20; 65.060.70

National foreword

This British Standard reproduces verbatim ISO 3767-3:1995 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee AGE/26, Operator controls, symbols, displays and manuals for agricultural and forestry machinery, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the ISO title page, page ii, pages 1 to 7 and a back cover.

et pelouses — Symboles pour les commandes de l'opérateur et autres
indications —*

Partie 3: Symboles pour matériel à moteur pour jardins et pelouses

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 3767-3 was prepared by Technical Committee ISO/TC 23, *Tractors and machinery for agriculture and forestry*, Subcommittee SC 14, *Operator controls, operator symbols and other displays, operator manuals*.

This second edition cancels and replaces the first edition (ISO 3767-3:1988), of which it constitutes a technical revision and expansion.

ISO 3767 consists of the following parts, under the general title *Tractors, machinery for agriculture and forestry, powered lawn and garden equipment — Symbols for operator controls and other displays*:

- *Part 1: Common symbols*
- *Part 2: Symbols for agricultural tractors and machinery*
- *Part 3: Symbols for powered lawn and garden equipment*
- *Part 4: Symbols for forestry machinery*
- *Part 5: Symbols for manual portable forestry machinery*

Annex A forms an integral part of this part of ISO 3767.
