National foreword

This British Standard reproduces verbatim ISO 4404:1998 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee PTI/13, Petroleum testing and terminology, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been prepared under the direction of the Sector Committee for Materials and Chemicals, was published under the authority of the Standards Committee and comes into effect on 15 December 1998

Petroleum and related products — Determination of the corrosion resistance of water-containing fire-resistant fluids for hydraulic systems

*Pétrole et produits connexes — Détermination du pouvoir anticorrosif des
fluides difficilement inflammables contenant de l'eau, pour les systèmes
hydrauliques*

Contents

	Page
Foreword	iii
Introduction	1
1 Scope	1
2 Normative references	1
3 Definitions	1
4 Principle	1
5 Reagents and materials	1
6 Apparatus	2
7 Producing the test fluid from an HFA type fluid concentrate	5
8 Procedure	5
8.1 Preparation for the test	5
8.2 Test	6
8.3 Assessment	6
9 Expression of results	6
10 Precision	6
11 Test report	6
Annex A (normative) Preparation of test waters	7
Annex B (informative) Equivalent specifications of standard test materials for test strips	8
Annex C (informative) Explanatory comments	Inside back cover
Figure 1 — Assembly for a single test strip	3
Figure 2 — Assembly for a pair of test strips	4
Table 1 — Specifications of standard test materials for test strips	5
Table 2 — Rating system for metal strips	6
Table 3 — Rating system for the fluids	6
Table A.1 — Composition of test waters	7
Table A.2 — Characteristics of test waters	8
Table B.1 — Specifications of standard test materials for test strips	8

Descriptors: Petroleum products, hydraulic fluid power, hydraulic fluids, fire-resistant fluids, tests, corrosion tests, determination, corrosion resistance.
