National foreword

This British Standard reproduces verbatim ISO 6196-3:1997 and implements it as the UK national standard. It supersedes BS 6054-3:1984 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee IDT/1/3, DOCUMENT IMAGING APPLICATIONS — GENERAL ISSUES, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the ISO title page, pages ii to iv, pages 1 to 12 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Amendments issued since publication

Amd. No.	Date	Comments

This British Standard, having been prepared under the direction of the DISC Board, was published under the authority of the Standards Board and comes into effect on 15 March 1998

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

ISO 6196-3 was prepared by Technical Committee ISO/TC 171, *Document imaging applications*, Subcommittee SC 3, *General issues*.

This second edition cancels and replaces the first edition (ISO 6196-3:1983), of which it constitutes a technical revision.

ISO 6196 consists of the following parts, under the general title *Micrographics — Vocabulary*:

- *Part 01: General terms;*
- *Part 02: Image positions and methods of recording;*
- *Part 03: Film processing;*
- *Part 04: Materials and packaging;*
- *Part 05: Quality of images, legibility, inspection;*
- *Part 06: Equipment;*
- *Part 07: Computer micrographics;*
- *Part 08: Use.*

Descriptors: Micrographics, photographic processing, vocabulary./**Descripteurs:** Micrographie, traitement photographique, vocabulaire.
